Phil:

This letter is in response to your reception report of March 10, 1995. Please accept my apology for taking so long to reply.

After comparing your notes with the station log, I confirmed with absolute confidence that the program you described was broadcast from our Baltimore, MD transmitter. I appreciate the reception details you provided.

Thank you for the detailed description of signal conditions. It is nice to know our old rig can still make the trip Northeast!

Best Regards.

Sincerely,

Dan Ryson
Chief Engineer
